About Me

Third-year B.Tech Computer Science student with a strong interest in Cybersecurity and Software Development. Experienced in building hands-on projects using Python, Java, C, and Web Technologies. Eager to learn, contribute, and grow through internship opportunities in a practical work environment.

Education

Bachelor of Technology (Computer Science & Engineering), <i>Amrita Vishwa Vidyapeetham</i> CGPA: 6.32 / 10 (up to Semester 4)	2024 – 2028
Intermediate (Class XII / MPC), Sanskriti Junior College Score: 764 / 1000 (76.4%)	2022 – 2024
Secondary School (Class X), Edify School Tirupati Score: 409 / 500 (81.8%)	2021 – 2022

Skills

- Java
 - C
 - FastAPI, React (Beginner)
- HTML, CSS, Javascript
 - Python
 - Tools: Git, GitHub, VS Code

Academic Mini Projects

- Style!Snap, Fashion Inspiration Web App**

 - Built a Pinterest-style fashion discovery platform with category-based image browsing, responsive gallery layout, and a dark-themed mobile-friendly UI
 - Designed an intuitive navigation system enabling users to quickly discover clothing styles and outfit inspirations across devices
 - GitHub: <https://github.com/yashveera29p2-art/Stylesnap1> 
- Analyzing Player Endurance & Winning Probability in Tennis, Mathematical Modeling Research Project**

 - Co-authored a research paper modeling how player fatigue affects winning probability in tennis using Geometric and Exponential Distribution
 - Implemented a Python-based probability simulation that dynamically calculates winning chances across different match stages
 - Collaborated with faculty and peers at Amrita Vishwa Vidyapeetham to validate findings against real professional match statistics
- Cyber Twin, AI-Powered Cybersecurity Assistant (In Progress)**

 - Building an AI-powered cybersecurity assistant using Python, FastAPI, and React that detects phishing emails, analyzes suspicious URLs, and explains threats in simple, non-technical language
 - Integrates Google Gemini API to power a conversational chatbot that provides personalized security recommendations and a Security Health Score based on user habits and privacy settings
- Academic Hackathons**

 - Participated in Guidewire DEVTrails University Hackathon 2026, organized in partnership with EY and National Insurance Academy
 - Competed in college hackathons solving real-world problem statements using Java, Python, and C in team settings
 - Completed exam-based hackathons in OOP (Java) and C, building solutions under strict time constraints
